

## Determining Your Ring Size - d Simple Guide

Ring sizing can be challenging, but don't worry - we have your back! Although our guide is helpful, we strongly suggest visiting a local jeweler to get sized in person. Please feel free to contact us at support@kyndmark.com if you have any questions before making a purchase.

## 1. Measure an Existing Ring

How to Find Your Ring Size: A Step-by-Step Guide

1. Print out this guide and set the page scaling to $100 \%$.
2. Choose a ring that fits comfortably on the desired finger.
3. Position the ring over the circles below. Match the size of the ring to the circle that is closest in size.
4. If the ring falls between two sizes, it's best to order the larger size.

## US ring sizes

2. Use a Paper Ring Sizer

Follow these steps to measure your ring size accurately:

1. Cut out the ring sizer and make a slit on the vertical pink line.
2. Wrap the ruler around the base of your intended finger.
3. Pull the angled end through the slit until the paper fits comfortably around your finger.
